

MUKDEN ADVICES

Indicate That Japanese Forces Are Again On the Move.

Are Massing On East Flank

Of Kuropatkin and Large Bodies of Troops Are Moving Up Liao River Valley. St. Petersburg Expects Enemy to Renew Attacks On Port Arthur.

Advices from Mukden and an official report to St. Petersburg indicate that the Japanese forces are again on the move. General Kuropatkin's reconnaissance establish the fact that they are massing on his east flank and bodies of Japanese are moving up the Liao river valley.

St. Petersburg, however, still believes that a serious engagement is not immediately at hand but that it will require some weeks for Marshal Oyama to be in shape for another attack. In the meantime the Russians continue to fortify Tie Pass and statements that Kuropatkin will not abandon Mukden are received in St. Petersburg with some skepticism. St. Petersburg expects the Japanese to now redouble their efforts before Port Arthur and another sortie of the fleet is expected.

EMPEROR'S

Message of Approval Read to Troops by Order of Kuropatkin.

London, Sept. 16.—A despatch to a news agency from Mukden, dated September 16th, says that in a general order issued by General Kuropatkin today, the following message from Emperor Nicholas to the general was published:

"I see from your report, that you were unable to hold the fortress of Liao Yang, owing to the enemy threatening to cut off your communications. The retreat of the whole army in such difficult circumstances, and over such terrible roads, was an operation excellently carried out in the face of grave difficulties. I thank you and your splendid troops for their heroic work and continued self sacrifice. God guard you."

Commenting on his majesty's message, General Kuropatkin said it contained a further expression of lofty benevolence on the part of the emperor, and adds:

"I am quite sure that in the work that lies before the Manchurian army every soldier will put forth his best efforts to achieve victory over the enemy, and become worthy of the confidence of the emperor."

Kuropatkin ordered the emperor's message to be read to all the troops with solemn ceremony.

TUNNELING

Under Port Arthur, Preparatory to Blowing It to Smithereens.

Chefoo, Sept. 16, 1:30 p. m.—The Japanese troops between September 8th and September 10th captured a fortress situated on a high hill two miles east of Golden Hill, by assault. The fighting was not severe. The Japanese were able to remain in the fortress because the quality of the powder used at Golden Hill was so poor that many shells fell short and others failed to explode. The foregoing information was received from an intelligent Chinese who left Port Arthur September 12th.

He had been a dock laborer there for many years. He adds that the Japanese are tunneling under the forts with the intention of blowing them up. He says that the work of tunneling is slow and will probably be unsuccessful.

The Russians have placed mines under all the public buildings, wharves, arsenals and everything that could possibly be of use to the Japanese, with the intention of causing their destruction should the Japanese enter the city.

The public building formerly occupied by Viceroy Alexieff, was hit by a shell recently and totally wrecked. Ammunition is growing scarcer, but there is plenty of bread. The price of flour is now nine roubles.

Another shell struck a destroyer which was lying in dock undergoing repairs, knocking it into kindling wood, and killing seven sailors. This shell came from the Japanese fleet, which comes in much closer than

formerly, daily, and throwing a few shells. One shell demolished several engines in the dock yards, and killed an officer and two men.

The fortress which the Japanese captured is not regarded as essential to the defense of Port Arthur, although it is obvious there will be some disadvantage from its occupation, as the Japanese are constantly receiving heavy guns from Japan, to which the Russians are unable to reply effectively. The Chinese was unable to describe this fort, but the comparatively weak resistance of the Russians suggests it was an out-post.

This assault was the only one to take place since August 31st. The five 11 inch guns on Golden Hill which were formerly pointed seaward, have been rearranged, three of them now point landward.

The Chinaman alleges that all of the guns except the 10 and 12-inch have been removed to land batteries from on board the battleships where they were of very little use.

Of all the ships in the harbor only six are fully able to participate in another fight at present.

A month ago the Golden Hill batteries threatened Shushiden. Now, the Chinaman says, the shells fall far short of that point.

Mukden, Sept. 16.—Early this morning twenty-six dead men belonging to Major Mitschenko's Cossack division were brought into Mukden. Particulars of the skirmish are not available. It is not clear whether it was a simple outpost affair or the beginning of real Japanese advance on Mukden.

Claim Pat the Victory.

St. Petersburg, Sept. 16, 3:25 p. m.—The Russian military critics analyzing General Kuropatkin's report of Liao Yang, seem to unite in considering that Field Marshal Oyama's purposes having failed, the honors belonged rather to Kuropatkin than to the Japanese commander-in-chief. The Novoe Vremya draws parallel between Yang Lang and Borodino, where General Kutusoff's abandonment of Moscow to Napoleon was followed by the disastrous retreat of the French.

The Calchas Case.

London, Sept. 16.—The owners of the British steamer Calchas have received a cable despatch from the captain of the ship at Vladivostok, saying that the written decision of the prize court in her case will not be handed down until September 22nd. The crown advocate, it is added, will probably appeal against the release of the vessel.

He has until October 4th to enter a protest. Meanwhile the Calchas will not be released unless bail is given for her value.

Japanese Forces Are Massing.

St. Petersburg, Sept. 16.—General Kuropatkin reports that reconnaissance have established the fact that the Japanese are massing near Yen Tai and Bentsiaputze. Bodies of Japanese are also moving in the Liao river valley.

OYAMA

Will Require Considerable Time to Organize a New Advance.

St. Petersburg, Sept. 16.—1:06 p. m.—News from the front is exceedingly meagre and the present lull in the operations in Manchuria is expected to continue for several weeks. Ever since General Kuropatkin's retreat was definitely accomplished the best informed military circles here were convinced that Field Marshal Oyama could not immediately attempt to renew his aggressive tactics.

All the information since received regarding the condition of the Japanese armies has strengthened the conviction that Oyama will require a considerable time to organize a new advance and it is now believed that he will probably await reinforcements of men and guns, to make good his losses at Liao Yang. This, it is reported, will be ready to leave Japan at the end of the month.

Moreover, it would create no surprise here if a Japanese diversion is attempted in the direction of Vladivostok, to prepare for a renewal of aggressive operations against Mukden. In the meantime Kuropatkin is also obtaining reinforcements. A large number of guns and some independent troops are on their way to the front and the first detachment of the Odessa corps is expected to be on its way by train tomorrow.

There is considerable mystery about Kuropatkin's plans. Although all the information obtainable indicates that the bulk of his army is still around Mukden and the official intimations are that Kuropatkin does not contemplate retreating further at present as there is considerable skepticism on these points. About all that is definitely known is that a considerable number of his troops have already gone north, that the heights near the Liao river at Tie pass have been fortified and that the cavalry is scouting on the Japanese flanks to sight the first indications of a new turning movement on the part of the Japanese. Only outpost skirmishes of little importance have been reported.

The Japanese are now expected to redouble their efforts before Port Arthur, whence the news received is not encouraging. In spite of success which has hitherto attended the defense, the Russian lines are being drawn closer, the garrison is undergoing severe privations, and its resisting power is weakening under the strain. A final sortie of the Russian squadron at Port Arthur may be expected at any time. When the command of the squadron was turned over to Rear Admiral Wiren he received instructions that if the fortress falls not one of the Russian ships must fall into the hands of the Japanese.

Paris, Sept. 16.—The Matin today published a long interview with Baron Hayashi, the Japanese minister in London who is quoted as saying:

"Before the war we demanded that Russia recognize China's sovereignty over Manchuria. Today, after our victories and expenses, we are no longer content with our former demands. After the fall of Port Arthur our conditions will be still more extreme and after taking Vladivostok they will be yet more extreme."

"The next battle will be at Tie pass. We shall continue hostilities throughout the winter. We have given up the plan of taking Port Arthur by assault and will compel its capitulation by famine. Its fall would free 50,000 men and enable them to reinforce our northern army, but we do not need them just now."

A NAMELESS YACHT FOUND.

Everything Indicates to Boatmen That Entire Crew Met Death by Drowning.

Chicago, Sept. 16.—A nameless capsize yacht found in the lake and brought to Chicago, is believed by boat men to indicate that the crew has been drowned. The fact that the sails were set is held as additional proof.

The steamer Virginia sighted the craft when just north of Waukegan and five miles from shore. The capsize boat was several miles further out in the lake. With the hope that members of the crew might be clinging to the upturned hull, Captain Pardee immediately went to the wreck. A small boat went close to the yacht, but there was no sign of life. The wrecked craft is of the "sidewalk" type, sixteen feet long and is painted white. One side of the railing was torn away, apparently in struggle to keep the boat afloat. The yacht would accommodate six persons.

SOLDIERS WHO ARE CHARGED

With the Killing of Corporal Clark Will Have Their First Hearing Monday.

Athens, O., Sept. 16.—The preliminary hearing of the seven artillery men brought here from Fort Sheridan to answer to the charge of complicity in the killing of Corporal Clark, of Warren, in this city, on August 8th, will be held Monday, before Justice Logan.

Prosecuting Attorney Foster will represent the state, and the prisoners will be defended by Judge Advocate Winship, of the department of the Lakes, L. M. Jewett and J. P. Wood, of Athens.

The artillery men are Sergeants Lott and Snyder, trumpeter Hamber and privates Johnston, Davidson, Barnett and Pierson.

VOTES

Of B. of R. T. Men Being Cast

On the Lines

Of the Pennsy, West of Pittsburgh,

To Determine Whether or Not They Will Go Out On a Strike.

Company Officials Refuse to Treat With Brotherhood Officers and Orders Committee to Re-treat to Work.

Cleveland, O., Sept. 16.—Grand Master P. H. Morrissey, of the Brotherhood of Trainmen, referring to the ballot now being taken by the members of the organization on the Pennsylvania lines west of Pittsburgh, in connection with the proposition to strike, said today:

"There is no question of recognition of the brotherhood involved. It is true that the men are taking a ballot to determine their further action in the matter. There are no issues between the employees and the company which could not be readily adjusted if the officials would meet the committee representing the men on the same basis and in the same spirit that prevails on railroads generally, including the lines of the Pennsylvania company east of Pittsburgh and Erie."

"The question of a strike rests entirely with the employees, and the officers of the brotherhood will not attempt to influence their decision one way or the other. It is not essential to the issue if the officers of the company refuse to treat with an officer of the brotherhood as representing the employees. The Pennsylvania officials, however, have ordered a majority of this committee to return to their work at once under pain of dismissal. Five members of the committee, including its chairman and secretary, have been notified by the company that their services are no longer required, but giving them the privilege of resigning."

"The questions involved are simply the adoption of working rules similar to those in force on other trunk lines in the territory. Some requests of increase of wages have also been presented, which of course are debatable, but the men have had no fair opportunity to discuss these with the Pennsylvania management."

It is expected that the result of the ballot will be known by Monday next. The lines affected in case a strike should be ordered are those included in what is known as the Northwest system of the Pennsylvania road. Among these roads are the Ft. Wayne, Cleveland & Pittsburgh, Pittsburgh, Erie & Ashtabula, and several smaller branch lines.

Declared a Dividend.

Philadelphia, Sept. 16.—The directors of the Philadelphia & Reading railway have declared a semi-annual dividend of two percent on the second preferred stock of the company. The dividend is payable on November 1st and the books close on November 31st.

"Immortal J. N." Again.

The "Immortal J. N." Free was in the city yesterday and visited the offices of President Ingalls, of the Big Four. He walked into Mr. Ingalls' bathroom without asking permission of anybody, and washed up.

He was about to take a seat at Mr. Ingalls' desk when he was informed by Mr. Ingalls' secretary, Archie McLaren, that he was intruding.

He then left in a huff, saying things were not as they used to be.

J. N. has probably traveled over more miles of railroads in the United States without paying fare than any man in the country who is not a railroad official. He always traveled on passenger trains, freight trains being too common for him. Cincinnati Enquirer.

CREW LANDED.

Washington, D. C., Sept. 16.—The superintendent of the life saving service is in receipt of a report of the Assaquoi, W. Va., life saving station, that the crew of the schooner Maggie E. Davis with a cargo of coal, which was sunk near that place yesterday, had been landed in surf boats by the life saving men. The same despatch also conveys the information that the steamer Pocconoc is on the beach, but that her condition is good.

USED SHOTGUN.

Wilmington, Del., Sept. 16.—Word was received here today by the police of the arrest at Norfolk, Va., of Delany Maddox, the negro who murdered Moses Polk, another negro, at Bridgeville, Del., on Thursday night of last week, because Polk objected to Maddox paying attention to his daughter. Maddox, it is said, lay in ambush for Polk outside the latter's home, and when Polk appeared Maddox fired the contents of his gun, piercing Polk's breast.

AGED TELEGRAPHER DEAD.

Albany, N. Y., Sept. 16.—M. L. Morgan, who has been connected with the Western Union Telegraph company for over forty years, and was, until two years ago, manager of the local office, died here today at the age of sixty.

WRECK ON FIFTH AVENUE.

New York, Sept. 16.—Two trainloads of passengers were badly shaken up and four persons received slight cuts and bruises in a rear end collision on the Fifth avenue line of the Brooklyn Rapid Transit today. Only two of those injured required medical attention, and their injuries were not serious.

ONCE WEALTHY SPECULATOR

Dies in the Poor House at the Age of Eighty-five Years. Lost Money in Oil Fields.

Pittsburg, Pa., Sept. 16.—Napoleon Shipley, a former postmaster at Washington, D. C., and for years one of the most successful and largest oil speculators of the country, died yesterday at the city poor farm, Marshalllea, aged 85 years.

Although the possessor of a large fortune it was lost through bad investments, over two hundred thousand dollars being sunk in a single oil venture.

Shipley was prominent in political circles at the national capital at the time of the civil war and when he died had well-to-do relatives in Baltimore, Cleveland, Parkersburg, Pittsburg and New Orleans. His body was claimed today by his son.

GRAIN MAN GIVES HIMSELF

Up to Officers Upon Learning of Warrant for His Arrest for Forgery.

St. Joseph, Mo., Sept. 16.—W. H. Harroun, the grain elevator man, surrendered himself to Sheriff Spencer today. He had learned that a warrant had been issued for him charging forgery of bills of lading and warehouse receipts aggregating nearly a million dollars.

Harroun learned of the warrant upon his return from Chicago, where he had gone to arrange for money with which to compromise with his creditors.

CREW LANDED.

Washington, D. C., Sept. 16.—The superintendent of the life saving service is in receipt of a report of the Assaquoi, W. Va., life saving station, that the crew of the schooner Maggie E. MINISTER TAKIHARI

Well Pleased With U. S. Promptness In the Lena Incident.

Counsel General at Frisco

Wires That There Has Been No Friction Between Him and the American Officials—Disposition of the Lena's Crew to Be Taken Up.

Washington, Sept. 16.—Negotiations between the American and Japanese governments regarding the disposition of the crew of the Russian armed transport Lena while that vessel is entered at San Francisco, it is said will take place in Tokyo, the state department, of course keeping Mr. Takihari, the Japanese minister at Washington, constantly informed of each step. Regarding the action of this government in permitting the Lena to disarm, Mr. Takihari said today:

"I take pleasure in cabling to my government the details of the Lena incident and the prompt action of the American government in the matter. While, of course, it is for my government to indicate its views in the matter, I doubt not that the promptness of the American officials will cause satisfaction to the authorities at Tokyo."

"I received today a telegram from the Japanese consul general at San Francisco, denying that there had been the slightest friction between

himself and the American officials. He asserts that he has never yet made any demand of any sort but that the extent of his action was to make inquiry as to the probable course of this government. He tells me that he has sent a full mail report of his interviews with the collector of the port and adds that his relations with that official are entirely cordial."

Russia is Willing.

Washington, Sept. 16.—Announcement that Captain Berinsky, commanding the Russian transport Lena, at San Francisco, acquiesced in all details of the process of disarmament prescribed by this government and would proceed to take advantage of the permission, reached the navy department last night in a telegram from Rear Admiral Goodrich, commander in chief of the Pacific station. Captain Pillsbury, acting chief of the bureau of navigation, today transmitted copies of the instructions sent Rear Admiral Goodrich to the secretary of the departments of treasury and of commerce and labor.

CLEAN BREAST BY ALLINGHAM.

Confesses to Having Quarreled and Assaulted Woman Who Is Now Dead.

Pawtucket, R. I., Sept. 16.—John Allingham, who was arrested yesterday on suspicion of having killed Mrs. Mary Crowley at Ateborro, Mass., today admitted to the police that he quarreled with the woman and assaulted her. He said he struck the woman with a club during a quarrel with her in her house. The house is situated almost on the line between Massachusetts and Rhode Island.

The body was found across the boundary in Massachusetts. The police say that Allingham apparently wishes to show that any crime which he committed took place in this state. In Massachusetts it is a capital offense, in Rhode Island it is not.

MIDSHIPMEN COMMENDED.

Secretary Morton, by Letter, Praises Several Naval Boys Who Have Shown Bravery.

Washington, Sept. 16.—Secretary Morton has addressed a letter of commendation to Midshipman J. Reidy, a member of the third class at naval academy in recognition of the bravery he recently displayed in jumping overboard and rescuing from drowning C. H. Hoiman, a seaman in the navy.

The secretary's attention has been called to similar acts of bravery on the part of Midshipman John Rogers, who rescued a seaman from drowning in the harbor of Cebu, while the Cincinnati was there, and of Ensign J. M. Enners, for jumping overboard and swimming to the lifeboat and taking charge of it. The secretary will send similar letters to these officers.

BREAKER BOYS ON A STRIKE.

Operations at Beaver Brook Colliery Tied Up—Three Hundred Men and Boys Out.

Hazleton, Pa., Sept. 16.—Operations at the Beaver Brook Colliery of C. M. Dodson & Co. were tied up today on account of the strike by the breaker boys, who quit because of the refusal of some of their number to join the local lodge of the United Mine Workers. A demand was made on the foremen for the discharge of the unionists, but he refused. Three hundred men and boys are affected.

KING VICTOR EMMANUEL

Congratulated Upon Not Choosing The Title of the Prince of Rome.

Rome, Sept. 16.—The majority of the people approve the action of King Victor Emmanuel in not choosing the title of the Prince of Rome for the heir to the throne, born last night, as it would have mixed the royal family in a party struggle, and would have embittered the conflict between church and state at a time when the pope seems to be leaning toward moderation.

It is believed that the title chosen, that of Prince of Piedmont, will become fixed for all time for the Italian crown prince, as is the title of Prince of Wales in England. To celebrate the birth, the king has granted amnesty to all deserters, and has also shortened by six months the terms of imprisonment for certain crimes.

King Victor Emmanuel has received warmest congratulations throughout the kingdom and also most cordial despatches from Emperor Nicholas, Emperor William, King Edward and Emperor Francis Joseph. The queen of Romania sent Queen Helena a poem on the event.

The infant prince will be baptized by Cardinal Richelmy, archbishop of Turin, and will be christened Humbert.

REACHED IN AND GOT MONEY.

One Stranger Attracts Agents Attention While Pal Robs the Cash Drawer.

Akron, O., Sept. 16.—Two strangers entered the waiting room of the Akron, Bedford & Cleveland Electric line this forenoon, and one of them stated to the ticket agent, S. C. Ross, that he had lost an express package, asking Ross to look for it. While Ross was in a small enclosure a few feet away for about two minutes, searching, the other man reached into the cash drawer and took \$50 in bills. They both escaped just as Ross discovered the loss.

SECOND DEGREE MURDER.

Charlotte, N. C., Sept. 16.—A verdict of murder in the second degree has been rendered in the White case at Salisbury. Thomas and Chalmers White, the defendants, who killed Russell Sherrill, the alleged betrayer of their niece, appealed to the supreme court.

Stories of New York.

"I have a regular customer," said a
west side grocer, "who invariably in-
sists on having large yellow eggs,"
says the New York Sun. "She is a
native of Boston, and she tells me
that this preference for yellow or
Brahma eggs is a peculiarity of Bos-
ton people. They like those eggs best,
and they command a better price in
that city than the white eggs. New
Yorkers, I have observed, like white
eggs best, and I have customers who
are willing to pay more for all whites
than for eggs mixed with yellow ones."

"I don't see, tho, why yellow eggs
shouldn't be worth the most, for five
Brahma eggs will equal seven of the
ordinary white ones, but they are
stronger and coarser than any other
eggs. The Brahma egg doesn't spread
all over when turned out of the shell
soft boiled, or when dropped in the
pan to fry, as all white-shelled eggs
do. My customer who insists on the
yellows, tho, says there is a richness
of flavor to that sort that no other
sort possesses. I agree with the New
Yorker, nevertheless, and say that
the white egg is more delicate and
palatable."

FINISHING THE HORSE.

Little Virgil Markham was taken by
his nurse past the blacksmith's shop
in West New Brighton. It was his
first glimpse at the wonders of the
smithy's art, and he stood fascinated
as a horse was being shod. When he
reached home he ran to his father and
said, "I saw the man who makes
horses today."

"Did you, my dear?" said Edwin
Markham, wondering. "What, wooden
horses?"

"No, father," said the boy, "im-
patiently, 'great big live horses. I look-
ed into his little house and saw him
doing it. He had one nearly finished
when I peeped in; he was just nailing
on its back feet."

"Nettle," said a mother to her five-
year-old daughter, "here's a dime; go
to the drug store and get me a bottle
of sweet oil."

Nettle started down the street, but
soon returned to ask:
"About how sweet do you want it,
mamma?"—Chicago News.

ELECTRICITY ON THE FARM.

Like the Trolley lines which run far
out into rural districts and bring many
small hamlets into close communica-
tion with great cities; like the rural
free delivery of mail, with its new
facilities for the enjoyment of post-
office service for getting the news of
the world, and for traffic of the kind
which used to be very inconvenient
for farmers, the windmill promises
much more than it has already given
the agricultural districts of the United
States. In this country and in Europe
recent experiments in the use of wind
power for generating electricity for
lighting houses and barns and operat-
ing farm machinery are full of inter-
est and suggest great advances in
the same direction within the next
few years. In parts of the west, where
irrigation is often needed to supple-
ment the uncertain and sometimes in-
adequate rainfall, big windmills are
used for pumping water from wells
into irrigating ditches. In the driest
months, and the same mills generate
power enough for electric motors to
light buildings and to cut feed and do
other work of like nature.

To get more power is only a ques-
tion of more windmills. To insure an
adequate supply of electricity for
lighting purposes and for operating
farm machinery is a matter of storage
batteries. So far these experiments
are not for poor men to undertake, but
the rich are making tests which prom-
ise ultimately to make the application
of wind-generated electric power to
the wants of American rural life one
of the most important additions to
the pleasures and comforts of the
farm.—Cleveland Leader.

SATAN'S LEGACY.

There is only one spot on the earth's
surface that has actually been will-
ed, decreed and bequeathed to his Satanic
majesty. This spot lies four miles and
a half south of Helsinki, Finland.
A few years ago Lars Hjalmarson died
in the little town of Peltisjarvi, in the
above-named country, leaving consid-
erable property in the shape of land-
ed estate. How he had come into pos-
session of so much land no one seem-
ed to know, but as he was a very bad
drunken he was generally admitted that
he was in league with Satan.
(Satan), and that they had many
business deals with each other. This
somewhat startling opinion was ver-
ified when among old Hjalmarson's
papers a certified warranty deed was
found which decreed to Satan all his
earthly possessions. The will was to
the same effect. The family have re-
peatedly tried to break the will, but
so far have been unsuccessful; thus
the records plainly show that his sat-
anic majesty has a legal right and
title to some excellent ground in the
near vicinity of Helsinki. The
simple people of the neighborhood
have changed the course of the road
which formerly skirted the Hjalmar-
son homestead and declared that they
would not enter the possessions of Sa-
tan & Co. for all the money that these
estates would bring.—Tit Bits.

The Kind You Have Always Bought

Bears the Signature of J. C. H. Fletcher

New Baby's Weight.

Judge Henry E. Howland, fellow of
the Yale University corporation, re-
cently told the following story:

"A well-known lawyer experienced
religion and joined the church," said
Judge Howland. "His friends, upon
learning of his desire to ally himself
with active religious work, decided
that there was one point upon which
he might still improve, and they talked
to his pastor about it. Said they in
effect: 'So-and-so is a fine man in
every way, but he does fail to stick
closely to the truth when he tells
about his fish catches, and we wish
you would caution him about it.'"

"The minister did his duty, and the
lawyer acknowledged his carelessness.
'That is my besetting sin, parson, and
hereafter I'll be careful. I shall buy
a pair of scales and verify every state-
ment I make by them.'"

"Not long afterward he was blessed
with a son. In due time there was
question about the weight of the boy.
The fond mother spoke up and said,
'Take father's new scales and weigh
baby in them.'"

THE STAGE.

Funny George Sidney and his merry
associates, forty-five strong, will bring
the third edition of their happy ve-
hicula, "Busy Izzy," to the Fairport op-
erhouse on tomorrow afternoon and
evening. The coming of this attrac-
tion promises a real treat to lovers of
the better class of musical farce com-
edy. True, it is but a melange of
much nonsense, much music, many
songs and many dances, pretty girls
and pretty gowns, but it is this very
class of amusement that has the call
nowadays. Manager E. D. Stair, who
has for years been the director of the
Ward & Vokes company, and who
still directs the fortunes of that or-
ganization, has followed the same
lines in "Busy Izzy" that have so pos-
itively won success in the case of
"Percy and Harold." George Sidney
is a comedian of rare magnetism, un-
pretentious in his efforts, he has the
art of winning the hearts of an audi-
ence as soon as he makes his entrance
on the stage, and then he goes about
his work in his own peculiar way and
wins. There are two acts to "Busy
Izzy,"—one a department store, and
the other a summer hotel. Musical
numbers are many and the music is
said to be all new.

In presenting "The Lost Paradise"
again this season, manager John A.
Hinmellen makes no apology to his
patrons; his past experience having
proven conclusively that there will
never be a lack of demand for pro-
ductions of this class. The generous pa-
trons always accorded this great
play is ample proof of its merits, and

ARIZONA JOURNALISM.

"Journalism in Arizona," said Judge
Bradshaw, as he tasted a caviar sand-
wich and laid it back on his plate hur-
riedly, "ain't what it used to be."

For instance, I see an article in the Prick-
ly Pear Persuader the other day,
which is published at Agua Caliente,
and it struck me as being weak. It
says:

"We understand that that renegade
hog thief and notorious wife beater,
Bill Calhoun, has been circulating
around a story that we are framing it
up to go to the legislature from this
county next election. We state right
now that we'd rather go to Yuma
penitentiary than the legislature."

"We also give notice that if this
loathsome Calhoun ever again says,
or even thinks, anything about the
editor of this paper we'll flay his
leopards and whisky-soaked hide from
off his putrid carcass and hang it on
our back fence."

"Of course," continued the Judge,
reading between the lines a careful
observer can gather that there is
probably some slight animosity be-
tween the editor and this here Cal-
houn, but the article lacks the strenu-
osity of the old days in Arizona jour-
nalism."—San Francisco Call.

CREEK

Likely to Cause Sickness

In South Lima.

Filled Up So There Is No Current.

Quite a Bunch of South Siders Will Soon Leave for California.

Read What the Reporter Has Gathered From Different Points of the South Side World.

Have you noticed Hog creek lately? For several weeks, with the exception of a day when it would rain, there has been absolutely no current to the stream, or pond, or pool, or whatever you are a mind to call it. All the filth of the city is practically held in check, and cannot flow toward the outlet. This morning the stench from this bed of filth was something awful, and just as a south side doctor remarked when crossing the Main street bridge: "It's the biggest wonder in the world Lima does not have an epidemic of typhoid or malarial fever. I tell you there ought to be steps taken to deepen and widen that creek, even if they have to go several miles beyond the city to get the proper fall that will carry off all the sewage."

For Health and Pleasure. Next Tuesday morning about twenty Limaites will leave over the Chicago & Erie for California, some with the hopes of regaining good health, while others will make their future homes in the west. Among the tourists from the south side will be Mr. and Mrs. L. H. Beall, of St. Johns avenue, who will make their future home with their son Granville Beall, in San Francisco. Mr. and Mrs. D. and children will winter at Upland.

Attended Funeral of a Relative. This morning Mr. and Mrs. C. T. English, Mr. and Mrs. H. Long and children and Mrs. Thomas Bell, all of Greenlawn avenue, went to Sidney, to attend the funeral of Mrs. Bell's nephew, Mr. James N. Anderson, a prominent citizen of that city.

Grandchild Seriously Ill. Mrs. Reuben White, of south Central avenue, was called to the home of Mr. and Mrs. Frank Rudy, near Westminter, by a message announcing the serious illness of one of the twin babies, which is thought to be a victim of brain fever.

Sent About Seven Hundred. Yesterday the American Cigar Co. closed its factory, in order that their employees might attend the big day at the fair, and as there are about 700 people connected with the factory, helped to swell the sea of faces.

Burned Her Clothing. Last Tuesday forenoon, Miss Lydia Hall, who board at the Wm. Hoddie home on Holly street, had the misfortune to lose all her clothing, with the exception of what she was wearing, through fire. Helen, the three-year-old daughter of Mr. and Mrs. Hoddie had found a match, and during her mother's absence, went up stairs to a closet in which Miss Hall's clothing hung, and lighted the match and tossed it into the corner. Everything in the closet was destroyed.

Locomotive Works Growing. Extensive preparations are being made at the Locomotive Works for needed improvements, according to the statement of an employee yesterday. A concrete foundation has been laid for a large pattern storage room, to be of brick, concrete and steel, at the south end of the works. There is also talk of an addition being built to the boiler department; also a large new foundry.

Heard Here and There. Robert Lawrence, of Huntington, Ind., visited his mother, Mrs. Anna Lawrence, yesterday.

Walter Linderman, son of John Linderman, of Second street, is improving from an attack of typhoid fever.

Carl Saunders, of Waynesfield, circulated among south side friends yesterday.

Mr. and Mrs. J. J. Haley and son, of east Kibby street, have returned from a visit with Portland, Ind., relatives.

Mr. and Mrs. L. B. Ward, of south Main street, are entertaining Mr. and Mrs. R. M. Wagner, of Beaverdam. After a short visit at Ottawa, Ill., Mrs. Dailey, of south Central avenue, has returned.

Mrs. Samuel Rise, of south Metcalf street, has as her guest, her brother, Frank Conner, of Kenton. Having spent two weeks in Columbia City, Ind., Mrs. Eva Wheeler has returned to her home on east Kibby street.

The J. E. Coleman and G. Metz families are entertaining Rev. and Mrs. S. S. Coleman, of St. Johns, O. South Union street is now the home of the D. W. Williams family, instead of south Main. They moved yesterday. Miss Amy Stuckey, of south Union street, and Miss Dora Neubrecht, of south Pine street, accompanied Mrs. O. H. Odell to her home in Mt. Morris, Mich., yesterday.

Mrs. J. W. Arnold, of Second street, had as guests yesterday, Mr. and Mrs. P. Robbins, of Winslow, Ariz. Mrs. Anna Lawrence, of Greenlawn avenue, yesterday entertained her brother, Mr. Chris Neal, and wife, of Alger.

W. F. and T. A. Maltbie and Mrs. Alec McCoy have been entertaining their brother, Rev. S. B. Maltbie, of Baltimore, Md., the past few days. He left this morning for Minneapolis.

Attend Stuckey's auction of household goods and general merchandise, 189 east Vine street, Saturday afternoon at two o'clock.

Jas. Taylor, of Kendallville, Ind., was seriously diseased with kidney and bladder trouble for 20 years. He tested every known remedy without much benefit, until he used Pineules. This new discovery cured him, and Mr. Taylor advises all persons suffering from kidney or bladder trouble to get a bottle of Pineules at once. H. F. Vorkamp, druggist.

CASTORIA. The King You Have Always Bought. Beware the cheap imitations.

Is an ordeal which all women approach with indescribable fear, for nothing compares with the pain and horror of child-birth. The thought of all the suffering and danger in store for her, robs the expectant mother of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of Mother's Friend during pregnancy robs confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does Mother's Friend carry women safely through the perils of child-birth, but it gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period.

Sold by all druggists at \$1.00 per bottle. Book containing valuable information free.

METHODIST

Go After Bishop Potter and His Saloon.

Editor Elected President of Layman's Association. Lima Man Chosen Corresponding Secretary.

Marysville, O., Sept. 16.—This (Friday) morning's session of the Central Ohio Conference opened by devotional services led by the bishop. At 8:30 a conference session was held, at which nearly all the members were present. Considerable routine business was transacted and several communications read from other conferences adjacent to this district in regard to the betterment of conference work.

Yesterday afternoon Wayne D. Wheeler, of Columbus, the attorney for the Anti-Saloon League, addressed the conference. Mr. Wheeler is a very pleasing gentleman and presents the local phases of the temperance issue in a way to make it plain to all. He has just returned from Europe, and in speaking of the liquor traffic in London, he said he looked into over two hundred saloons in that great city and did not find one that did not have a girl or young woman as the bar tender and out of the entire body of parliament there were over three hundred members who were owners or interested financially in breweries. He also stated that over two-thirds of the ministers of the gospel of London were stockholders in breweries. The subway saloons and Governor Herriek came in for criticism. He said that the governor of our great state, by a threatened veto, had interfered in favor of the liquor traffic, in the passage of the Brannock local option law by the state legislature last winter.

Owing to Mr. Wheeler's meeting being held in the M. E. church the Presbyterians tendered the use of their large auditorium for the use of the laymen's association. Considerable business was transacted there, after which the nominating committee reported the following nominations, all of which were confirmed: President, H. P. Crouse, of Toledo, first vice-president, Prof. J. H. Grove, of Delaware; second vice-president, Joseph Cotton, of Bellefontaine; third vice-president, C. H. Churchill, of Lima; corresponding secretary, W. D. Berry, of Paulding; treasurer, W. H. Peters, of Upper Sandusky.

W. H. Reeder, of Toledo, read a very interesting paper on the accomplishments of the general conference held at Los Angeles, last May. Mr. Reeder was a lay delegate to the general conference and was on the committee which retired the five bishops. He ably defended the action in so doing.

Rev. M. C. B. Mason, D. D., address of the Freeman's Aid and Southern Educational Society at its meeting at 7:30 last night. Mr. Mason is a very able colored divine and presented the colored side of the question in a most able manner.

The Evangelization conference will be held at 4 o'clock this afternoon. W. S. MAHON.

MODERN MAGAZINES.

The Week That Must Be Done by a Successful Editor.

The poor editor who should be so famous as to depend for the contents of his magazine on the driftwood that came in to him would soon be replaced or his magazine would needs go out of business. Not only has the day gone by when editors sat in easy chairs and majestically sifted wheat from chaff in the piles of stuff sent prayerfully to them, but gone, too, is the day when an editor could sit in his office and plan a good magazine out of his own consciousness. A good magazine today represents the skillful collaboration of several bright, keen men, or men and women, and its make-up is a nice medium between what the editors have reason to think their subscribers want and what they have reason to think their contributors can do best.

It is an important part of good editing nowadays to keep in as close touch as possible with the greatest possible number and variety of persons who write. It is part of an editor's business to keep well informed on all the new books and all his contemporaries among the periodicals to know (better, perhaps, than the man himself knows) what kind or kinds of work any given man can best do and to have the knowledge filed away in his memory for ready reference. It is part of his business, too, to see and talk with, whenever he can, not only the persons who are trying to write for him, but all persons whose situation in life is at all interesting in a way which ought some day to make them valuable to him.—Clara E. Laughlin in Reader.

SPORTING RIGHTS.

Only Source of Income of Many Titled English Families.

Were it not for the enormous sums paid for fishing and shooting rights many people of ancient names and goodly title would, in the most literal sense, have no means of livelihood whatever, and only the other day one of the best known property agents of the west end of London drew up for the writer a list of a dozen people mixing in society of an exclusive kind, every penny of whose income is derived from the letting of sporting rights.

Nearly all the money thus expended has been made in commerce, and the agent referred to above showed documentary evidence proving that there are lots of men who do not mind paying as much as £100 for every deer, £3 for every trout and £20 every salmon on their kill, plus the sport of killing them. One of the most remarkable able features of this letting is the fact that only about one in every hundred of the owners of ancient sporting rights ever enjoys his privileges as a sportsman. He either prefers or is compelled to part with such privileges, and these who take advantage of them are nearly all people in business.

This renting of fishing and sporting has even extended down to comparatively humble people in the provinces. Many a small Yorkshire farmer is being kept, and well kept, not by his farming, but by the letting of some comparatively insignificant sporting right.—London Tit-Bits.

Holmes' Inspiration.

There is hardly room for doubt that Dr. Oliver Wendell Holmes was encouraged to write his "Autocrat of the Breakfast Table" by reading "Table Talk"—being "The Discourses of John Selden, Esq., or His Sonnet of Various Matters of Weight and High Consequence Relating Especially to Religion and State." The work belongs to 1634-54 and treats of such topics as articles, baptism, Bible, bishops, books, ceremonies, Christmas, clergy, confession, conscience, creed, duel, epitaph, faith and works, gentlemen, holy days, idolatry, Jews, juggling, king, law, lectures, liturgy, marriage, money, oaths, oracles, poetry, popery, presbytery, proverbs, religion, sacraments, trade, truth, university, wit and women. For the thousandth time, "Nothing new under the sun!"—New York Press.

Good Watch Stands Hard Knocks.

"The knocks a good watch may be subjected to and yet come out uninjured are most remarkable," said the jeweler as he attached his glass to one eye and peered into the workings of a timepiece. "This watch is supposed to have fallen a distance of more than a hundred feet, and I can detect not the slightest disorder. A few days ago a countryman brought a watch to me which he wished examined. He had lost it in a field, and it had lain out there, exposed to the elements, for six weeks, part of the time being submerged in water. It was in perfect condition, not even a speck of rust in the case!"—Columbus Dispatch.

Animals' Love of Sweets.

This love of sweets is very common in our animal neighbors, from the bee to the horse. If you want to please a horse try giving him two or three lumps of sugar. Not only the bees, but the wasps, flies, butterflies and indeed nearly all insects, are conspicuously attracted to sweets, and it is this sweet tooth which leads the insect to visit flowers and thus help them to produce seeds.—St. Nicholas.

Thought.

"But you can't make a machine that will think." "No," replied the inventor, "and I wouldn't if I could—if I thought it would think as some people do."—Chicago Record-Herald.

Tragedy Averted.

"Just in the nick of time our little boy was saved," writes Mrs. W. Watkins of Pleasant City, Ohio. "Paen monia had played sad havoc with him and a terrible cough set in on his sides. Doctors treated him, but he grew worse every day. At length we tried Dr. King's New Discovery for consumption, and our darling was saved. He's now sound and well." Everybody ought to know it's the only sure cure for coughs, colds and all lung diseases. Guaranteed by H. F. Vorkamp, druggist. Price 50 cents and \$1.00. Trial bottles free.

THREATENING MILITARISM.

"The people of this country surely
know by this time," says the Indian-
apolis Sentinel, "that Mr. Roosevelt
has it in mind to make this a military
government pure and simple. The ex-
penditures upon the military establish-
ment during his administration have
been five hundred millions more than
was spent under the last four years
of Cleveland's incumbency. Nor only
this, but Roosevelt is everlastingly
jabbering about war. What is the use
of peace gatherings when we have a
president who thinks peace disastrous
and peaceful people weaklings?
When he was governor of New York
he said in a speech: 'If we ever grow
to regard peace as a permanent con-
dition, and feel that we can let the
town fearless, virile qualities of heart
and mind and body sink into disuse,
we will prepare the way for the in-
evitable and shameful disaster in the
future.' Of course this is all the
rankest kind of nonsense, but it shows
the bent of the Roosevelt mind.
Along with other things he has said,
and considering the vast military ex-
penditures that he has caused to be
made in a time of profound peace,
there is abundant reason to believe
that if he should be elected president
the country may expect many unne-
cessary difficulties.

As a contrast let us see what Judge
Parker had to say in his speech of ac-
ceptance:

"The display of great military arma-
ments may please the eye, and, for
the moment, excite the pride of the
people, but it is a dangerous policy to
follow."

country, the brains, brawn and muscle
of a single immigrant, nor induce the
investment here of a dollar of capital.
Of course such argument as may be
necessary for the security of the coun-
try and the protection of the rights of
its citizens at home or abroad, must
be maintained. I protest, however,
against the feeling that, by reason of
the commanding position we have as-
sumed in the world, we must take
part in the disputes and broils of for-
eign countries; and that because we
have grown great we should intervene
in every question that arises in other
parts of the world. There could be
no better, clearer or more sensible
statement of our proper position in
the world's affairs than this. Roose-
velt is the apostle of the "big stick."
He swaggers and swashbuckles and
blows and blusters and tries to create
an impression that he is a very tre-
mendous fellow indeed. His opinion
on the other hand believes that we
should invite peace, for he knows
that there is not a nation on earth
which does not recognize the com-
plete and absolute ability of this coun-
try to take care of itself in any emer-
gency. If the people want to place
their government in the hands of a
"warlord"—and a poor kind of "war-
lord" at that—they will elect Roose-
velt. If they want their affairs man-
aged with care and economy, with in-
ternational peace and honor, they will
elect Parker.

Parker, Peace and Plenty, is a new
and appropriate slogan, of which the
Lima Democrat is the author.

Judging from the price of meat, the
meat trust is still in existence, not-
withstanding reports that the adminis-
tration has been having a large force
of special agents in and about Pack-
ington for months to investigate
whether the combine was violating the
laws governing trusts. That it
was everybody knows, to a dead cer-
tainty, and all know that the reported
investigation was nothing more than
an ante-election bluff from which no
results would come that would bene-
fit consumers.

POLITICS AND GRAFT.

The question of immigration, and
the enforcement of the laws affecting
the wholesale coming in of undesir-
able aliens is about the most serious
one confronting the people of this
country.

The Toledo News-Bee is running a
series of reliable letters setting forth
the facts concerning the class of peo-
ple who are now seeking homes in
the United States, and from time to
time it makes editorial comment on
the correspondent's statements.

Under the caption "A Fresh Flood
of Immigrants," Tuesday's issue of
the Bee says:

"In his article in today's News-Bee,
Correspondent John Vanderveek
points out that an increased flood of
immigrants from southern Europe and
Asia Minor is bound to result from the
trans-Atlantic rate of \$7.50.

"If this class of people is so unde-
sirable that the rules of the old world
are ready to actively abet in its ex-
portation to the United States, is it
not undesirable enough for native and
foreign-born American citizens to
arouse themselves to the danger?"

"It is argued, and truly, that Ameri-
ca's haven must not be closed to the
able and ambitious victim of the cruel,
crushing political and industrial con-
dition of the old world.

"It is one thing to permit individuals
who are competent to assume the
duties of American citizenship to
come to our shores to escape political,
religious and industrial oppression. It
is quite another thing to permit the
wholesale importation of these very
conditions.

"When the year 1905 shall be rung
in one in every 70 of the inhabitants
of the United States will have been in
this country less than one year. This
mass of people will tend to demoralize
the labor market of the United States.
Even our wonderful national prosper-
ity cannot long meet such a strain.
The social, political, moral, industrial,
financial and religious tone must be
lowered in its average.

"The lowering of the average lowers
the status of each individual in the
United States.

"Inadequate laws laxly administered
are to blame. And at the bottom are
the two great curses of America—
partisan politics and graft.

"No political party has had the cou-
rage to face the issue squarely. The
foreign-born citizen is insulted by the
bugaboo of 'fearing the foreign vote.'
The 'foreign vote' does not represent
nor tolerate the class of immigration
that is going on today.

"For the sake of a few cents com-
mission—or graft—on a steamship
ticket; for the sake of a few times
profit on the passage, the hirelings of
the steamship companies and the com-
panies themselves are unloading pau-
pers, criminals and incompetents upon
the people of this country.

"It means taxes for almshouses and
hospitals.

"It means the importation of new
diseases.

"It means crowded penal institu-
tions.

"It means a gutted labor market.

"It means a lowered standard of
living for all."

"It means the establishment of
peonage and semi-industrial slavery."

"It means the continuance of politi-
cal corruption in cities through the
bribe-control of thousands of voters
who are not ready as yet to be in-
trusted with the ballot."

"The evolution of free government
was a matter of centuries and its de-
struction is sure unless newcomers
have gone through the necessary evo-
lutionary processes."

A powerful arraignment of the lax-
ity with which the administration is
enforcing the laws.

A warning to laboring men that
with no barriers offered to the annual
coming of one million immigrants
the republican campaign cry of "stanc-
pat" and a "full dinner pail" as the
direct result of a protective tariff
policy, a fable to begin with, become
the thinnest of political chimeras.

These and all the evils consequent
upon the non-enforcement of the laws
by an administration, the head of
which says in his letter of acceptance
have been enforced by him, are things
which every man, in this broad land
should "cut out and paste in his hat."

GETTING RID OF TROUBLE.

There is a bit of a poem that we
learned many years ago. The author
of it we do not know, but that mat-
ters not. This little verse has been
called to mind many times since we
learned it, not for any beauty of
rhythm but for its simple, plain, com-
mon-sense philosophy. The stanza
reads:—

"For every evil under the sun,
There is a remedy or there is none.
If there be one seek it and find it.
If there be none then never mind it."

Pagan philosophy, we have heard it
called. But he it Pagan philosophy or
otherwise, it is common sense at least.
For every evil, sickness, trouble, sor-
row, or whatever it may be, there is
a remedy for it or there isn't. Look
the trouble straight in the face, look
at it from all sides, and discover if
there is a remedy. If there is a rem-
edy, then do not stop to talk or com-
plain or worry or grieve, but go after
that remedy and secure it. Then the
remedy is found the trouble is
vanquished, and you haven't added to
it long days and nights of useless
worrying.

If looked at from every possible
standpoint, you can see no remedy;
that is by any possible means avail-
able,—then never mind the trouble.
Turn away from it, ignore it, forget
it. It will only make matters worse
to keep thinking about it, worrying
over or talking about it.

Take this bit of philosophy and ap-
ply it to every difficulty, every prob-
lem, every worry, every trouble.
Face your problem, whatever it is,
dissect it, look it over from every
viewpoint, give it a thorough diagnos-
is, and if there is no remedy, or none
that is within your reach, then drop
the whole matter. Don't spend an
other moment thinking about it. It
will only waste your vitality and
make you miserable.

But if, on the other hand, after a
careful diagnosis, you find that there
is a remedy, that by a certain course
of action or by special effort on your
part you can secure the remedy, then
leave no stone unturned to bring that
remedy to bear on the trouble. Un-
daunted and determined go after the
remedy. Don't talk and seel and nag,
or whine, but with cheerful mien and
fixed resolve, secure the remedy that
will cure the trouble.

What's the use anyhow of worry-
ing about anything? Worrying never
made anything better. It always
makes it worse because it is harmful
to the body and mind. Worry weak-
ens you and unfits you to cope with
the trouble. It uses up the energy
that should be spent in making things
better. Foreboding and fear won't
prevent any disaster. Oftentimes we
bring upon us the very things we fear.

Never climb a hill until you get to
it. We remember, as a child, in rid-
ing through the country we had a
dread of hills. How often we saw far
ahead of us, on the road, a formidable
looking hill. How high and rough
and steep it looked, and how we feared
it. How hard it would be for the
horse to carry us up such a hill. We
were sure he would slip and fall and
maybe upset the carriage, and so,
with the greatest apprehension, we
would approach the dreaded hill. But
how surprised we were as we came
near to find the hill receding, growing
flatter, and really no hill at all when
we reached the point that seemed so
high and craggy and dangerous.

So it is with many of life's perplexi-
ties. How darkly they loom up be-
fore us, what a black pall they
spread around us. But when we get
close up to them they have vanished
entirely. We spoil so much of life in
fear and foreboding. We let slip the
beautiful moments that are ours and
spoil them by dreading the moments
of the future with which we have
nothing to do. We ride over the nice-
laved country, forgetting its beauty,
amusingful of its delight, dreading the
hill that never comes.

Football, very foolish, wasting on
mental and physical vitality. Making
ourselves wretched and everybody
about us miserable because of our

bad habit and worry habit.

For all these troubling things apply
his bit of philosophy—if there be a
remedy seek it and find it; if there be
none then never mind it." Look
straight at the thing that is bothering
you, causing you to lie awake at
nights. Take it apart bit by bit, an-
alyze it, look it all over. Perhaps by
that time it will disappear of its own
accord. But look for the remedy and
waste no time in applying it. If there
is no remedy, then bring your common
sense and will power to bear. Turn
away from the troubling thing and
busy yourself with other thoughts,
make new plans and go straight on
with confidence that everything will
come right anyhow, and that it is
only foolish to worry about anything
whatsoever.—E. P. in Medical Talk.

GORMAN WILL
BE AN ADVISER.

Taggart Will Be In No Wise Sup-
planted By the Shrewd Mary-
land Senator.

New York, Sept. 16.—Judge Parker's
reception of visitors at his apartment
at the Hotel Astoria proceeded today
in the same manner as yesterday and
will continue until the candidate de-
parts for Esopus at 6:30 this evening.
Few persons admitted to the apart-
ment on the fifth floor passed through
the hotel office.

Those who admitted conferring
with the candidate or were ac-
knowledged to the press by private
secretary McCausland were Charles
C. Murphy, the Tammany leader, For-
mer Senator David B. Hill, Senator
Arthur P. Gorman, representative
William Sulzer and John B. McDonald
of New York.

A representative of the Associated
Press was received by Judge Parker
who, however, declined to discuss in
detail the matters which brought him
to New York.

He said that Senator Gorman had
consented to take an important place
in the management of the campaign
and that his decision was at the earnest
request of National Chairman
Taggart as well as other campaign
managers.

He said that Mr. Taggart will not
be supplanted nor superseded in any
way and that Senator Gorman would
not be connected with the details of
the campaign management.

Judge Parker said Senator Gorman
would act in advisory capacity only
and would remain in New York prac-
tically all the time from now to elec-
tion.

SENTENCED REDUCED.

Columbus, O., Sept. 16.—The state
board of pardons today commuted to
two years the five year sentence of
Edward Shattuck of Franklin county,
serving time for theft, and pardoned
Isaac Brine of Hocking county, serv-
ing a life sentence for rape.

ANOTHER CONTEST.

The fire department boys were not
satisfied with their defeat by H. W.
Bennett's dun team in the race
Wednesday, and another match has
been made which will be one of the
attractions tomorrow afternoon.
Bennett's duns will again draw the
ambulance and a change will be made
in one of the department horses
which will be hooked to the patrol
wagon. The department team will
again take the pole and there are
those who believe that the duns may
have to take the dust this time. The
race was exciting enough to be styled
a good attraction and now that it is
to be repeated, others will be given
a chance to see the test of speed.

BODY

Of Unknown Man Found

By Track Men

Along the C. & E. Road Near Spencerville.

Body Taken to Spencerville But Has Not Been Fully Identified.

Papers Found Indicate That the Deceased's Name Was Otto Beier and That He Lived in Shelby County.

About 7 o'clock this morning a crew of section men employed on the C. & E. railroad found the lifeless body of an unknown man lying beside the road at a point about 1 mile east of Spencerville. The condition of the body indicated that the man had been killed by a train and had been dead for several hours.

The remains were taken to Miller and taken to the morgue in Spencerville. The body was examined by a physician from the C. & E. railroad. Papers found on the dead man indicated that he was Otto Beier, and that he had been employed at the C. & E. railroad. The body was taken to the morgue in Spencerville and the papers were taken to the C. & E. railroad. The body was not fully identified.

CENTRAL OHIO SAENGERFEST

Opened at Six O'clock This Morning With Band Concert According to Custom.

Akron, O. Sept. 16.—The Central Ohio Saengerfest opened properly today with a band concert at 6 o'clock this morning in the tower of the new German American hall which was dedicated with grand ceremony last night. The morning's concert was given by the English Regiment band of this city and was in accordance with an old German custom.

Today's exercises were scheduled to begin at 2:30 this afternoon. The great feature for the afternoon is the mass chorus by the Central Ohio Saenger Bezirk, under the direction of Prof. Gustav Siegel of Akron. The other numbers will be by Vic Herbert's orchestra of New York, the Akron High School chorus and the Harmonie of Cleveland.

TERRITORY PROHIBITION.

National Superintendent of Anti-Saloon League, Says Nation Will Be Dry.

Columbus, O. Sept. 16.—Rev. H. A. Baker, national superintendent of the Anti-Saloon League, just returned from a two weeks' canvass of the situation in the Indian territory expresses confidence that the treaty conditions with the Indians which prohibit the sale of liquor in the Indian Territory will not be disturbed. Efforts have been made to have a state bill pass congress combining Oklahoma and the Indian Territory into one state which would abolish the treaty. Baker claims that the people of the territory would prefer to have statehood indefinitely postponed rather than have liquor introduced into the nation.

RAW FISH AND WASABI

An Appetizing Dish That Is a Favorite in Japan.

Not so well known as the delicacies as soy sauce, but of equal merit as an appetizer is wasabi. Its use is universal in Japan. It serves the same purpose that horseradish does on occidental tables, but is less well known.

My own introduction to wasabi was unique. I found among my most pleasant experiences in this strange land my meeting with Tamiyo Yano, novelist and diplomat. And not the least item in my debt of gratitude to him is that he taught me to appreciate my raw fish and wasabi. Mr. Yano was born the mikado's ambassador to China and other lands. One night at the Nippon Club he had a delicate subject on the menu with which to amuse. He finally got to the subject of wasabi, a cosmopolitan appetizer, a one of the distinguishing marks of cultivated travel. Then he passed me raw fish!

I confessed that I was willing to be a stick in the mud or any other variety of sultan rather than take place with the international diet by eating such a dish. My host, however, was painfully insistent, finally adding that with raw fish they, of course, ate wasabi. Now, I did not have even a vague notion of what this might be, but with that raw proper before me it was comforting to know that at least it was to be diluted with something. I composed up an experience in taking a car of unshowered under sherry and aspersaria which, while not a beverage one would grow to crave, might have been worse. I figured out also that with my ganchettes with chopsticks I might manage without exciting suspicion to drop the fish before the fatal moment and eat only the mysterious wasabi. But whether through cowardice or courage I cannot say, fish and relish made quick and simultaneous journey to my reluctant palate and in the never to be forgotten instant those flashed into my consciousness the undeniable truth that in all my occidental years I had been denied one of the most savory dishes in the world. Charles Lamb's "Christmas" had rubbed delight over his first taste of roast pig but that is a degraded passion compared with an Anglo-Saxon's initial ecstasy over an oriental morsel of raw mounds garnished with the appetizing roots of Eutropha wasabi. All honor to triumphant agricultural farm, and may this far eastern member of the imperial family take deep root and spread and flourish in my native land! Harold Boice in Booklovers' Magazine.

Field Arrested.
After Eugene Field's return from his first trip to Europe, where he spent his patrimony like a prince, and before he went to Denver, he had a little close personal experience with hard times. One day he walked into a leading St. Louis hotel and squaring himself before the register, ascribed his name at his well known cosmopolitan character. The clerk had never heard of him, but he read the name with a quick glance and said:
"Do you wish a room, Mr. Field?"
"No" was the answer.
"Dinner?"
"No."
"Then may I ask what you do want?" continued the clerk.
"I just wanted to arrive," replied Field solemnly. "I had not arrived at a good hotel for many months. I feel better. Thank you," and he stalked out with long, heavy strides.

Flamingoes.
A water on flamingoes, which he has studied in their lairs in the Bahamas says of them: "They are probably as near to the goose as to any other order of birds, having a similar structure of bill and feet and some what similar feather character. They are unique, however, in their unusually bent bill, which, though goose-like in general economy, is constructed in every detail upside down, as the bird in feeding reaches down to the bottom and places the top of the bill down. The tongue is also constructed in the same inverted way. The webbed feet are for sustaining the birds in the soft ooze they love to feed in, acting like snow shoes."

Wanted New Habits.
Sad Looking Man—I see you have a sign out, "Maker of Women's Habits." Do you mean it? Ladies' Tailor—Certainly I do. Sad Looking Man—Well, since my wife's been going to the club she's lost all the good ones she had, and I wish you'd make her a complete new set regardless of expense. And please include the habit of staying at home once in awhile and mending my clothes.

A palmist was telling a certain man his fortune recently. The palmist was relating how the man would have the hereafter of losing his wife.

"And," said the palmist, "in a few months you will marry again." "Himself," whispered the subject, "does it mention any names?"

Think over the man you have known who have "gone to pieces." Every one went to pieces because he did not observe the simple rules of life; because he did things experience said he should not do. Pay attention to the simple rules of life, and be industrious, patient and honest and you will not go to pieces.

More Against Central League.

Lima Too Fast

In Yesterday's Game for Marion.

Beat the Hoosier Leaguers By the Close Score of Five to Four.

Same Teams at the Wheeler Park This Afternoon—Van Anda Signed on Pitching Staff of the Local Team.

An exciting game of base ball was witnessed by a small crowd of fans at Wheeler park yesterday afternoon. Lima facing and defeating the Central league team from Marion, Ind. Van Anda pitched for Lima, having been signed by manager Maxwell to finish the season with the home team, and although Marion scored 9 hits to Lima's 6, Lima's hitting was more effective and the errors made by Egge's men were less costly. The same teams are at Wheeler park this afternoon and the fast Mr. Vernon team will be there tomorrow and Sunday.

Next week the Lima team will go to Lancaster and Urbana, and after returning home will play the Friday team at Wheeler park.

Yesterday's score was as follows:

ELIDA ITEMS.

Mr. Robert Robinson will soon remove his family to Muncie, Ind. We are sorry to lose them, but glad to hear Mr. Robinson has secured a fine position in the Indiana oil field.

The wife of Mr. George Bauman, superintendent of the Bradford P. L. is visiting her brother, J. K. Mykel, of Elida.

Mr. J. K. Mykel, foreman of the United States Petroleum Co., is quite sick. He has been confined to his bed since last Friday.

Mr. O. P. Lenon, foreman for the Ohio, has been transferred to the Muncie field.

Dr. Herr, our prominent young physician, has bought the Long property at Elida, where he will move in the near future.

Ex-Senator Crites and family have just returned from St. Louis, where they have been attending the exposition.

The Elida school commenced on Monday and the children are all happy.

Outing Flannels.

We have twice the stock of outing flannels of any previous year, and the range of prices is greater. We have them at 5c, 6c, 6 1/2c, 7c, 8c and 10c the yard.

Comforts and Blankets.

We want you to inspect our line of comforts at 58c, \$1.25, \$1.50, \$1.75, and up to \$2.98. Cotton blankets at 48c, 60c, 65c, \$1.00, \$1.15, \$1.25 and up to \$1.98 the pair.

Mercerized Petticoats.

At \$1.00 and \$1.25 we are showing an exceptional strong line of black mercerized petticoats. New cloaks for ladies, misses and children.

THE MARKETS.

New York, Sept. 16.—Wall street.—A mixed state of speculative sentiment was indicated by the opening movement of prices in the stock market today, which was very irregular.

The western railroad stocks were generally higher, but St. Paul and Southern Pacific showed small declines. Dealings in Pennsylvania continued very large at an advance of a half over last night. United States Steel fell 3/4 on a sale of a 2,000 share block, and the preferred was also off a quarter. Colorado fuel fell 3/4.

The recovery carried prices well above last night. United States Steel preferred touched a new high level on the movement at 69 1/4. Reading rose 2c over last night. Lackawanna 5c, the paper stocks 1 1/2 to 2 and Union Pacific, Norfolk & Western, Brooklyn Rapid Transit, Tennessee Coal, the leather stocks, cotton, oil and Consolidated Gas about a point. There were a few slight recessions and the closing was irregular.

ALTMAN-DUNCAN FUED TAKES A FRESH START.

Jacksonville, Fla., Sept. 16.—The Altman-Duncan feud at Baxter has broken out again. It is reported that two men have been killed and a number wounded. Specials from Baxter say the situation is critical, and unless troops are speedily brought to the scene there will be further bloodshed.

Feet Swollen to Immense Size.

"I had kidney trouble so bad," says J. J. Cox, of Valley View, Ky., "that I could not work, my feet were swollen to immense size and I was confined to my bed and physicians were unable to give me any relief. My doctor finally prescribed Foley's Kidney Cure which made me well." Avoid serious results of kidney or bladder disorder by taking Foley's Kidney Cure. H. F. Vortkamp and Wm. M. Melville.

Cold in the Head

is the preliminary stage of catarrh. The Doctors call it "coryza." No matter what it is called, it is the most distressing of all the inflammatory diseases. It hurts eyes, ears, nose and throat.

Rexall CHERRY JUICE, So Pleasant To Take,

cures cold in the head, in short order. It is guaranteed to do so. If it does not your money will be refunded. If it wasn't a good remedy we couldn't afford to do that.

H. F. VORTKAMP.

It is indeed gratifying to us to have so many of our lady friends take their pencil and figure on our soap deal, and compare it with the soap club proposition. The result is we have sold sixty boxes of Star Soap in three weeks. No wonder as long as our price is 8 cakes for 25c, and a solid oak Rocking Chair, and many other premiums in sight.

"Another thing"—Are you drinking Japan Tea? If you are it surely is to your interest to try our new 1904 crop Japan Teas. Choice grade 60c, and the finest raised on Japan soil for 80c. We never before owned as choice drinking Japan Teas as this season.

FELDMANN & CO.

The Best Stockings for School Wear.

Our Hosiery Department is supplying more Children's Hosiery by far than any previous record shows. We are Hosiery Specialists and are convincing buyers that we use our many years experience for their benefit.

We have a better variety, better wearing stockings for each price than can be had in any ordinary store.

FOR
25c

We have a number of different weights for Boys, in fine and coarse ribs; they are elastic, well shaped, and have wearing quality in them, in addition to good appearance.

For Girls we also show several weights, the nicest Hosiery ever sold for a quarter. Among the variety there are those with white feet as well.

In the lower priced grades we sell Stockings for Boys and Girls at 10c and 15c that are extraordinary. If you have been troubled with poor wearing Stockings we are all the more anxious you should try these. They are here in all the desirable weights, double knees, elastic and well shaped.

ALL RECORDS ARE BROKEN

**By the Attendance at the Big Day of
the Allen County Fair Yesterday.**

**Grounds Were Packed With People From City
and Country and the Trains Brought Hun-
dreds From Surrounding Towns.**

Members of the agricultural board wore the smile yesterday that went some off. And well they should for Lima enjoyed the first real up-to-date fair day for seven long years. A few two many clouds and just a dash too much of frost in the air were the only discomforts, but the afternoon warmed up and made it pleasant for the great crowd of people from city and country.

Various estimates were made as to the attendance, which was placed by some at 15,000 and by others even beyond that. At any rate it is conceded by members of the board to have been the biggest day in the history of Allen County's Agricultural Society and the board will move their headquarters over on easy street for a year at least. After a long series of discouragements, year after year of unsuccessful dodging of foul weather it is about time that there was a glimmer of the silver lining, and the members of the board are deserving of praise for the manner in which they held on and fought through the seasons until one was found they could buckle on to.

It was a great, big, good natured crowd that attended yesterday and from early in the morning when the first vehicles from the country began to arrive, until the last car left the grounds with the gathering dusk, there was the noise, the bustle, the din and the contagious laughter of the thousands who flung decorum to the winds and pitched in for a free and easy good time.

*There wasn't a feature on the grounds neglected. All of the exhibits had their continual stream of visitors, art hall being so densely packed at times that it was almost impossible to wedge through the jam either for entrance or exit. The grand stand patrons passed the 1,000 mark, and sat through a pleasing program of races, while the quarter stretch and the fence along both sides of the track was a sea of heads far beyond the turn.

Today broke bright and promising an even better deal by the weather man than for yesterday, and with the offer of good racing, and the closing of the schools, there were early indications of a much larger Friday crowd than usual. Tomorrow will wind up the week and with four racing events, including the 2:30 trot and three send offs for the jumpers, the last day is not the least by any means. In addition to the attraction for the older ones, there will be a free gate tomorrow for the children and it is to be hoped that the weather man will continue to be kind for their sake.

IN STRAIGHT HEATS

The Trotting and Pacing Events Were Won Yesterday.

A field of five horses, with Jesse Clay setting the pace, scored for the word in the 2:24 trot, and with the exception of a single change in the final heat, the horses finished in exactly the same positions and in the same time to a quarter of a second. It was a race between Jesse Clay and Embury, and although the latter looked like he was compelled to save his speed to keep in the class he wasn't able at the supreme moment to get his head

beyond the steady going little mare. In the final heat, Offertory, the Steiner horse, was posted at even money for place and although to finish second made no difference in the distribution of the purse, he was driven to get as near the finish as possible and drove Embury off his feet within a hundred feet of the wire. Offertory also went to a break and came in second pulling up. Following is the summary:

2:24 Trot—Purse \$300.
Jesse Clay, b. m., Mrs. Cora Worline, Cardington, O. 1-1-1
Embury, b. g., Scioto Valley Stock Farm, Ashville, O. 2-2-3
Offertory, b. m., Steiner Bros., Bluffton, O. 3-3-2
Clayone Chief, b.s., J. M. Adams Coshton, O. 4-4-4
Lena G., g.m., F. L. Sikes, Portsmouth, O. 5-5-5
Time—2:20 1/4; 2:20 1/4; 2:20 1/4.

2:35 Pacing Event.
There were but four starters in the pacing event, and after the first heat, only three came back to score. Baron Rupert going lame and getting the flag in the first attempt to come home near the leaders. Bert Hozee was a three-time finisher, but the first two heats were won under conditions replete with excitement. In the first, with Florence Betterton leading all the way, Bert Hozee lay in the wake until well in the home stretch when he came to the front with a surprising burst of speed and cut off the leader by a head.

In the second, Katharine L. after finishing third, attempted to repeat Bert Hozee's act and the finish was so close that opinion was divided as to the winner. The judges, however, awarded the heat to the Hoosier horse, and he had no trouble in taking the third and final.

2:35 Pace—Purse \$300.
Bert Hozee, ch. s., Bruce Miller, Muncie, Ind. 1-1-1
Katharine L. b.m., Geo. W. Mulholland, Sidney, O. 2-2-2
Florence Betterton, s.m., C. R. Rosenstretor, Oak Harbor, O. 2-3-3
Baron Rupert, blk. s., H. Hooker, Cridersville, O. 3-3-3
Time—2:21 1/4; 2:23 1/4; 2:25.

The Running Events.

There was nothing to it but Jack Addie in the 1/4 mile dash, against a field of six. They got off with but little delay and the gelding had a start that landed him a winner by a length. Tidness finished second and Cornack third. Time 1:18 1/4.

In the country run, half mile heats, Lady Lusk took both without much opposition. Although only three horses came to the scratch there was a long delay, due to the bad acting of Charlie Fenstermaker's King Cayon. The lady got away good both times and was never headed. Tommy Riddle was a close second and King Cayon third.

Notes and Comments.

In the brief mention of the various displays in the art hall at the fair this publication inadvertently omitted the name of the Sherrick Studio, at the south east corner, second floor. This exhibit is not entered for premiums and the public will do well to look it up.

QUEER STORY

**Told by Traveling Man About
the Loss of Money.**

**Claims a Colored Woman Took
Three Dollars Out of His Pocket-
book Last Night.**

A traveling man from Columbus who refused to give his name called at the police station today and reported that he had been robbed of \$3 by a colored woman with whom he talked on the street last night. He claims that the money was paper and that it was taken out of his pocket book and the pocket book was returned to his pocket. He did not discover the loss until this morning but was quite certain as to the manner in which the robbery occurred.

The police take no stock in his story.
